HUB AND SPOKES MODEL MOSTAR

Disclaimer: This publication is made possible with the support of the American People through the United States Agency for International Development (USAID). The contents of this publication do not necessarily reflect the view of USAID or the United States Government.

Dear partners,

USAID Developing Sustainable Tourism in Bosnia and Herzegovina (Turizam) and **the City of Mostar** are pleased to share with you new thematic itineraries and programs that link Mostar to the nearby towns, villages, and attractions that have been identified and selected as part of the **Mostar Hub and Spokes model**. These itineraries can be used to assist you in creating and developing new and attractive packages to attract more arrivals and increase the length of stay in the country using Mostar as the anchor destination (Hub) while encouraging excursions to nearby destinations (Spokes).

This innovative model aims at increasing the number of visitors, spending, and length of stay in Mostar and its satellite municipalities/cities located in its immediate vicinity within 1.5 hour's drive. **The Mostar Hub and Spokes model connects Mostar with 12 destinations** through a package of full-day or half-day offers/itineraries, offering diverse trip and excursion options for regional and international travelers leading to the extended length of stay and increased per-visitor spending thus augmenting local economic benefits, new investments, and job creation.

The criteria for selecting the **12 Spokes** include **proximity to Mostar, infrastructural access, a plethora of cultural, historical, and natural attractions, unique experiences, accommodation facilities, the interest of the municipality/organization to partake**, and based on that, a series of focus groups with relevant stakeholders were conducted to collect data on available attractions, experiences, and natural and cultural-historical assets.

Mostar Hub and Spokes destinations include: **Neum, Ravno, Čitluk, Nevesinje, Široki Brijeg, Ljubuški, Grude, Stolac, and the neighboring municipalities of Berkovići, Ljubinje, Jablanica, and Konjic, as well as the wider area of the City of Mostar (Buna, Blagaj, Žitomislići, Goranci, etc.)**

On the following pages, you can find a series of suggested thematic programs that suit different profiles of visitors and different interests. Depending on your needs and preference, those programs can be used as is, combined, or as an inspiration to develop additional ones.

Warm greetings,

USAID Turizam & City of Mostar

3 Čitluk

The municipality of Čitluk is located in the southwestern region of Herzegovina. The area of today's Municipality of Čitluk, i.e. Brotnjo, was first mentioned in history in 1306/07. in trade relations with Dubrovnik. That date, the oldest so far, was found in the Dubrovnik Historical Archive, which points us to the fact that Brotnjo was connected to that coastal town back in the Middle Ages. Since the end of the fifties of the last century, the town of Čitluk has been developing as the administrative center of Brotnjo. Today, the Municipality of Čitluk (Brotnjo) is part of Herzegovina-Neretva Canton and covers an area of 181 km². The municipality of Čitluk borders the cities: Mostar, Čapljina, Ljubuški and Široki Brijeg. Čitluk is one of the smallest municipalities in Bosnia and Herzegovina. It is well-known for its agro products, autochthonous wines varieties, and history of tobacco production. It is said that almost every family in Čitluk has a vineyard.

5 Jablanica

Jablanica With its 301 km² area, the municipality of Jablanica is one of the smallest municipalities in the Federation of Bosnia and Herzegovina. The oldest excavations show that this area was inhabited as far back as the Metal Age, although it really flourished in the Roman era and in the Middle Ages, as evidenced by 42 sites with 683 necropolises with stećci. Most of these monuments of material culture originate from the end of the 2nd and the beginning of the 1st millennium BC, and the stećci mostly come from the late Middle Ages. The municipality has very good natural prerequisites for the development of tourism. Natural resources in the municipality of Jablanica are: Jablanica and Grabovičko lake, mountains Prenj and Čvrstica, rivers Neretva, Doljanka and Šanica. The rivers Doljanka and Šanica are very interesting for fishing and camping in nature. Both of the mentioned mountains are over 2000 meters above sea level and as such represent a challenge to many mountaineers. There is a possibility of winter and summer tourism on the mentioned mountains.
